The journal has a strongly international perspective, with a special interest devoted to the transition from totalitarianism to democracy, to the multiple citizenship and publishes a third issue every year exclusively devoted to state-of-the-art surveys, the elucidation of central concepts and review essays which explore key topics with reference to the most relevant recent publications. The journal receives contributions from young scholars as well as highly respected names such as Robert N. Bellah, Jon Elster and Lord Runciman.

Contributions come from the wide variety of fields implicated in the debates - law, anthropology, public policy, archaeology, art history, preservation, ethics, economics, museum-, tourism-, and heritage studies - and from a variety of perspectives and interests - indigenous, Western, and non-Western; academic, professional and amateur; consumers and producers - to promote meaningful discussion of the complexities, competing values, and other concerns that form the environment within which these disputes exist.

COMING IN 2010, BERGHAHN ADVANCES IN RESEARCH!

ENVIRONMENT AND SOCIETY

Editors: Paige West and Dan Brockington

Published in association with the Earth Institute, Columbia University

The field of research on environment and society is growing rapidly and becoming of ever-greater importance not only in academia but also in policy circles and for the public at large. As a forum to address these issues, we are delighted to present an important new peer-reviewed annual.

RELIGION AND SOCIETY

Editors: Simon Coleman and Ramon Sarro

Religion and Society responds to the need for a rigorous, in-depth review of current work in the expanding subdiscipline of the anthropology of religion. In addition, this important annual aims to provide a dynamic snapshot of developments in the study of religion as a whole and encourages inter-disciplinary perspectives.

The Trashing of Margaret Mead

Anatomy of an Anthropological Controversy

Paul Shankman

Foreword by Paul S. Boyer

In 1928 Margaret Mead published *Coming of Age in Samoa*, a study of the lives of adolescent girls that transformed Mead into an academic celebrity. In 1983 anthropologist Derek Freeman published a scathing critique of Mead's Samoan research, badly damaging her reputation. Shankman explores the many dimensions of the Mead-Freeman controversy as it developed publicly and played out privately.

FIRST PEOPLES

New Directions in Indigenous Studies

The University of Arizona Press, The University of North Carolina Press, The University of Minnesota Press, and The Oregon State University Press announce a new collaborative initiative to publish scholarly monographs in Indigenous Studies. With funding from the Mellon Foundation, the collaborating presses will publish works by first-time authors that reflect the expanding field of Indigenous Studies. The publishing initiative is founded in the recognition of the ways Indigenous traditional knowledge can contribute to and reframe discourses on the history, culture, identity, and rights of Indigenous peoples worldwide. Authors selected for participation will be eligible for manuscript development support and a unique marketing program that will help the books reach a broad audience.

STOP BY BOOTH #519 FOR INFORMATION ABOUT SUBMISSION GUIDELINES AND TO LEARN MORE ABOUT THIS EXCITING INITIATIVE.
